

Table of contents

1. Scientific basis	9
Tomasz ŁODYGOWSKI, Piotr SIELICKI Estimation of building safety under explosion	11
Andrzej NOWAK, Przemysław RAKOCZY Fatigue Load Spectra for Highway Bridges	31
Monika SIEWCZYŃSKA, Barbara KSIT Changes in masonry structure calculations after the introduction of Eurocodes	41
Tomasz BŁASZCZYŃSKI Research on repair methods for oiled and cracked RC structures	52
2. Practical application	67
2.1. Construction Engineering	69
Józef ŁUCZKO, Yu. ZHIGUTS Increase of durability by thermal modification of special grey and white thermite cast irons	71
Tomasz BŁASZCZYŃSKI, Mirosław ILSKI Advantages and disadvantages of deep hydrophobisation	79
Jacek KATZER Restoration of the gothic tower of St. Jacob's Basilica in Szczecin	91

2.2. Industrial Structures	105
Piotr BERKOWSKI Examples of the degradation of RC structures in an industrial environment	107
Mieczysław KAMIŃSKI, Marek MAJ, Andrzej UBYSZ Research of post-tensioned cable girder in an aggressive environment	120
Wojciech BILIŃSKI, Kazimierz PISZCZEK Repair of RC drinking water reservoir after 30 years of exploitation	134
2.3. RC Structures	147
Wiesława GŁODKOWSKA A proposal for the assessment of the crack resistance of polymer and cement-polymer coatings	149
Czesław MIEDZIAŁOWSKI, Mikołaj MALESZA, Marta KOSIOR-KAZBERUK Long-term decay of selected concrete structures and recommendations for their repair	163
Edmund PRZYBYŁOWICZ, Aldona ŁOWIŃSKA-KLUGE Failure state of reinforced and prestressed concrete hollow-core slabs as a result of the poor quality of precast elements	177
Wojciech BILIŃSKI, Kazimierz PISZCZEK The influence of project and construction errors on the safety and durability of an RC sewage plant	203
Janina BOGUĆKA, Jacek ŚCIGAŁŁO Moisture content in concrete and durability of reinforced concrete structures	216
Teresa GRABIEC-MIZERA, Jacek ŚCIGAŁŁO Cracking of fine-grained concrete elements and their durability	229
Author index	241
